How to Create a VoiceThread Presentation

1. In the upper right corner, click on “Add your own”. This will prompt you to start creating a VoiceThread.

Creation Process

2. Click “Create a new VoiceThread”.

Add your own
a. The "Create new VoiceThread" is where you can begin the creation process by selecting your files.

2. Select the source of your content.
   You can upload a PowerPoint slide deck, a video recording, an audio recording, or record directly from the VoiceThread platform.
   Check out VoiceThread’s [site](#) for all the file types you can upload.
3. Add a title to the content.

Adding Comments (Audio, Video, Text)

4. Select “Comment” to add audio and/or video description to enhance the VoiceThread presentation.
5. At the bottom center of the VoiceThread, there is a “+” sign. Select it to choose the type of comment option you would like to leave.

Note: You can get more information about the different commenting options by visiting VoiceThread’s Commenting page.

a. When you click on the “+,” it should expand to show the five commenting options.

Note: Use this “How to Comment on a VoiceThread” for a step-by-step guide on these commenting options:
Sharing VoiceThread Presentation

6. Once you are done commenting, click on the “X” button in the top right corner to exit the commenting step.

7. **REMEMBER** you **MUST** share your VoiceThread with your course/group! Or else others will not have access to your VoiceThread!
